

Tavolini disponibili in diverse dimensioni.

La serie Sciara comprende anche consolle e tavoli da pranzo.

Struttura: acciaio inox AISI 304 verniciato opaco nei colori avorio o grigio lava, puntali in materiale plastico

Superficie di appoggio: alveolare di alluminio verniciato opaco in abbinamento al colore della struttura (solo per piani composti da più elementi).

Piano: intero o composto da più elementi in lava con decoro in vetro.

Note:

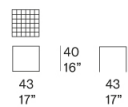

La decorazione del piano è realizzata a mano e rende unico ogni singolo pezzo. Il materiale, il particolare tipo di lavorazione e la tecnica usata per la produzione creano elementi dal disegno diverso, che a loro volta compongono piani differenti anche della stessa partita. L'irregolarità è la caratteristica distintiva di questa lavorazione.

Gli elementi in lava che compongono i piani di Sciara possono essere utilizzati anche per il rivestimento e la decorazione di superfici verticali

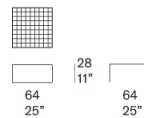

Il prodotto può essere usato anche in ambienti interni.

E' consigliato l'uso di un Winter Set di protezione.
