fittings, and a hand-polished finish and voila! A star is (re)born.” **3: LINLEY FOR SUMMIT** This sophisticated line bridges the gap between traditional and contemporary. IT marries the best of British design with the best of American manufacturing know-how and ingenuity. A stainless-steel dovetail element embellishes the feet of each piece, epitomising the fine craftsmanship and attention to detail that is emblematic of both LINLEY and Summit. Each piece of LINLEY for Summit furniture is crafted from the highest quality plantation-grown teak, a sustainable resource and Summit hallmark. All metal fittings are constructed with marine-grade stainless steel and polished for a finished appearance. **4: PAOLA LENTI, PORTOFINO COLLECTION** The Portofino series includes a stool, a deck chair and a XL deck chair with folding structure, an armchair, a sofa and dining and bistrot tables with stone top. Designed by Vincent Van Duyse, the range is available in natural or dark dyed locust heartwood treated with an industrial acrylic wax varnishing.
